Revenue Forecast

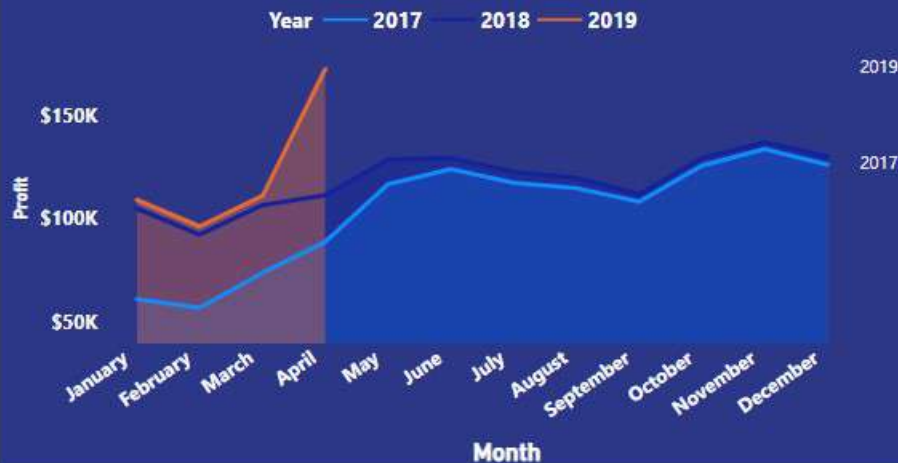

Profit By Product Category

Across all the categories, Coffee is by far the most profitable one and has been on top mainly because of the varieties it offers across all the stores and is mostly liked by most of the customers.

Monthly Profit YOY

Year 2018 has been a year of consistent sales across all the stores and is due to higher demand from customers, especially coffee related products.

Average Profit Across All Stores By Product Group

We have seen earlier that out of all the product category, Coffee was the most profitable one, but actually if we dig deeper, than the profits were mostly coming out of as a beverages, having different flavors. In total, beverages stands tall as the highest profitable across all the product groups.

%Revenue By Each Store

Out of the three stores, store number 8 has the highest revenue, but overall all the stores are pretty close to each other in terms of revenue generation. The stores are located in the main downtown areas and has corporate offices surrounding them, may be it is benefiting the stores along with the taste they provide in their menu.
